ADDITIONAL REGULATIONS:

- Logging operations are restricted to the dates from August 15th through the following MARCH 15th or spring breakup.
- NO pole skidding and No dangle head processors.
- Fixed head processor felling of trees onto the tracks where the equipment came from or in the direction the equipment is going or directionally hand felled trees are the two options for harvesting this stand of red oak. All logs and pulp will be forwarded to the landing sites.
- Damage to Red Oak regeneration (seedlings, 0-5" diameter) must be minimized.
- Harvest all orange marked trees regardless of merchantability leaving orange paint visible on stump. Utilization is 100" to a 4" top. Harvesting must be concurrent throughout the sale.
- Unmarked dead standing trees must remain standing unless they pose a safety hazard.
- BMP's and County rutting policies must be followed throughout the sale contract.
- If rutting occurs, frozen ground only restrictions will be applied.
- All trees must be pulled back onto the sale area and out of all vernal pond/wetland areas before limbing and bucking occurs.
- No equipment will be allowed to operate in any wetland or vernal pond areas within the timber sale.
- The snowmobile trail must be kept snow covered, free of debris and machinery and in safe useable condition during the snowmobile season. All trails must be leveled and returned to their original condition.
- Harvesting slash must be lopped and scattered to less than 24 inches from the ground within 25' of the snowmobile trail. No other slash control measures are needed.
- Access is limited to current logging road system. Landing sites must have County Forestry Dep't. approval prior to construction. All roads and landings must be leveled and free of slash at sale completion. Bond Money will not be returned until this has been completed to the satisfaction of the County.
- All items of the Oneida County Timber Sale Contract also apply.
